ICCA STROKE 2022

ACCUTE STROKE INTERVENTIONS AND CAROTID STENTING

ICCA Stroke is an interdisciplinary and interactive course focused on carotid stenting and acute stroke interventions. Leading experts in the field will guide you through patient selection, interventional imaging, accessing the carotids and intracranial vessels, embolic protection, device options, post-procedural care as well as avoiding and managing complications. You will have the opportunity to learn how to build an interventional stroke center and start your own carotid stenting program.

Hands-on training

The program will include simulator demonstrations by our experienced faculty and a limited number of one-on-one training sessions will be available for registered attendees. Practice your skills in acute stroke interventions and carotid stenting procedures on cutting edge medical simulators in a safe training environment.

We look forward to seeing you in Frankfurt!

*Iris Grunwald, L. Nelson Hopkins,
Klaus Mathias and Horst Sievert*

COURSE DIRECTORS

IRIS GRUNWALD, MD

University of Dundee, Dundee, UK

NELSON HOPKINS, MD

University at Buffalo, Buffalo, USA

KLAUS MATHIAS, MD

World Federation of Interventional Stroke Treatment (WIST)

HORST SIEVERT, MD

CardioVascular Center Frankfurt CVC, Frankfurt, Germany

CO-DIRECTORS

STEFAN BERTO, MD

CardioVascular Center Frankfurt CVC, Frankfurt, Germany
and Minneapolis VA Medical Center, Minneapolis, USA

PANAGIOTIS PAPANAGIOTOU

Hospitals Bremen-Mitte, Bremen, Germany &
National & Kapodistrian University of Athens, Athens, Greece

ADNAN SIDDIQUI, MD

University at Buffalo, Buffalo, USA

KENNETH SNYDER, MD

University at Buffalo, Buffalo, USA

Who should attend

- » Interventionists from all fields specializing in acute stroke intervention
- » Vascular surgeons
- » Neurologists and stroke physicians
- » Anesthetists
- » Anyone involved in endovascular stroke treatment, pre- and postprocedural care
